CHRISTIAN SCIENCE

That Spirit is the real and eternal, and matter the unreal and temporal, is clearly set forth in the Lesson-Sermon entitled "Substance" at Christian Science churches on Sunday. It contains this affirmation by the Apostle Paul in his epistle to the Romans: "The invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his eternal power and Godhead" (1-20) and this statement in "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The substance, Life, Intelligence, Truth and Love, which constitute Deity, are reflected by His creation; and when we subordinate the false testimony of the corporeal senses to the facts of Science, we shall see this true likeness and reflection everywhere." (516: 4 - 8).

The Spirit Of Scouting

We have been very grateful to the Pioneer for publishing various articles on behalf of the Boy Scout Movement. Today we would like to submit to them for publication a short article on the subject, "The Spirit of Scouting". We quote from Col. J. Wilson's O.B.E. Director, International Bureau of Boy Scout Movement, Quebec:

In January 1900 appeared the first part of "Scouting for Boys". The writer of course was Lord Baden Powell, in Part IV of the original appears the following sentence: "An organization of this kind would fall in its subject if it did not bring its members to a knowledge of religion. Part I had contained the Scout's promise: 'On my honor, I promise, that I will do my duty to God...' And again: 'No man is much good unless he believes in God and obeys his laws'."

The original Scout's promise, including the above has been accepted officially since 1922, and no national scout organization can qualify for membership in the Boy Scouts International Conference unless the full promise is accepted. The International Conference at Copenhagen in 1924 voted specifically: "The Scout movement has no tendency to weaken, but on the contrary, to strengthen the individual religious belief. The Scout Law requires that a Scout shall truly and sincerely practice his religion."

I have taken the pains to quote extensively from the founder's own writings, not only to make my point that Duty to God is the heaven from which the Spirit of Scouting rises, but also to defend him from those who seek to misinterpret him, and who in different parts of the world argued that Scouting has no part in Religion and Religion no part in Scouting. In light of act and experience that argument is completely untenable. End quote.

Much more can be said about the Spirit of Scouting but we sincerely

WESTCOTT NEWS

(From Our Own Correspondent)

On Friday afternoon last a miscellaneous society was held at the home of Mrs. Bernal Rinehart when a large group of neighbors and friends met to honor Miss Clara Schmiedmüller whose wedding takes place shortly.

The pleasant afternoon was spent as a contest and a sing-song. Clara was then seated under a canopy of streamers and bells in pink and white to open up the many beautiful gifts before her. Miss Lorraine Kouschula, a former school mate assisted her in the unwrapping. The happy task done, the bride-to-be very fittingly thanked everyone and invited all to come and see her in her new home.

In conclusion of the activities of the afternoon the hostess Mrs. Rinehart served a delicious lunch with several of the ladies assisting her. Thus a lovely afternoon was brought to a close everyone wishing for Miss Schmiedmüller much happiness in the future.

Congratulations to Mr. and Mrs. Fred Rodway on the birth of a daughter. Mrs. Rodway is a former girl from this district. Joyce Dagford, little Devon Rodway is staying with her grandparents, Mr. and Mrs. Herman Dagford while his mommy is in hospital.

A social evening is to be held in the westcott school this Friday evening. There will be whist, five hundred and canasta card games for entertainment. Ladies are asked to bring lunch and there is no charge to anyone so come and enjoy yourselves.

Miss Elaine and Marjorie Goetjen came home for the weekend. A group of gentlemen in this area are canvassing again for signatures to sign for the power as to extend it to homes where it is not already

believe with Col. Wilson, Lord Baden Powell and many others connected with the Scout Movement that no boy can be a Scout in the true sense of the word until he has a real belief in God and conscientiously obeys His laws.

Rev. C. C. Armstrong

The United Church for years, has been doing a very great deal of social service work. One type of service is the care of elderly people. More people are living longer and churches and communities are taking steps to provide help wherever it is needed. Local residents take the most active interest. In their own local institutions, and much of the support given to homes for elderly people comes from people within the district. In addition to this, church homes are supported through funds made available through the Missionary and Maintenance Fund.

There are two homes for elderly ladies in Montreal, with accommodation for thirty guests, who range in age from 64 to 94 years of age. Many of these need nursing care. In the east as in the west, there is urgent need for hospitals for the chronically ill. These homes are comfortable, well furnished and local church groups help to provide special treats, gifts and outings for those in residence.

There are two homes named after Ina Grafton Gage, one in Toronto, and the other in Moose Jaw. The home in Moose Jaw was formerly an annex of the General Hospital.

Mr. Justice D. A. McIven of Regina included the furnishing of a large living room in memory of his wife. These two homes provide for 80 elderly ladies.

In Saskatoon there are two lodges for both men and women and in Fort Saskatchewan, in Alberta there is Agnes Forbes Lodge. These all provide rooms, under one roof, for old folk, much after the pattern of the home contemplated here.

The "Fair Haven" home for senior citizens in Burnaby, B.C. is now the

Proclamation To All Citizens

Need for assistance to those who have suffered from the recent terrible floods in the United Kingdom and in Northern Europe is great.

The Canadian National European Flood Relief Committee, representative of all Provinces, is launching an unlimited appeal for funds and you are invited to contribute.

Contributions may be made through branches of all Chartered banks or directly by the purchase of Postal Money Orders at the Post Office made payable to Canadian National European Flood Relief Committee. Receipts will be issued to those making donations, which will be valid for income tax purposes.

I am sure it is not necessary for me to emphasize the need for assistance in this disaster and I feel that all citizens will co-operate to the fullest extent.

outstanding example of the United Church's residential care for elderly persons. Here eight duplexes have been erected at a cost of \$6,000 each. The cost was kept low, not because of inferior design or materials, but because of generous donations in material and labor. In addition to the eight duplexes there is a main building. Today between 80 and 90 people are living in peace and security. The duplexes are for people of small means, but no destitute and are rented for \$25.00 a month. Their big advantage is that they enable old people to be self-supporting, with better accommodation at lower cost than they could find elsewhere. Indeed, without such help they would be in an unhappy predicament, for their slender financial resources are not enough to support them, but are sufficient to keep them from being completely dependent.

BRICK HOUSES

First use in Canada of a new patented brick that is sweeping the U.S. with industry promotion has resulted in three-bedroom brick houses that will rent to low income families for \$57 a month.

Built in Halifax, as part of a larger development, they use SCH brick. This brick is a "through-the-wall" unit; only one brick width is used to make the wall, instead of a width backed up with another width of brick, block, tile or frame.

The brick is made larger and wider to make this wall strong enough for houses and small buildings, and to make laying faster. Swealed clips are used to fasten turning to the wall so plaster or other interior finish can be applied.

CANADIAN farmers know the struggle, at maple sugar time, of hauling the sap to the sugar house—especially if there has been an early thaw. So we were interested in hearing how one farmer, who used aluminum tubing for summer irrigation, also used it as a sap line to carry the sap from his trees to the sugar house some distance away.

Light, strong, easily handled aluminum has a way of stimulating people's ingenuity in their search for short cuts that will save them time and money. Today more than a thousand different Canadian firms are manufacturing articles made from aluminum served by Alcan. (Aluminum Company of Canada, Ltd.)

BERGEN NOTES

(From Our Own Correspondent)

The Bergen Home and School
Association held their monthly
meeting in the Bergen school on
Friday evening, March 6. Main
topic of the evening was whether
schools of 20 years ago were better
than those of today and an inter-
esting discussion took place. Lunch
was served at the close of the meet-
ing.

A door prize will be given at the
next get-together, to be held March
30, and everyone is invited.

At the road meeting held Satur-
day afternoon in Bergen hall, Mr.
Wesley Haug was re-elected road
foreman for the district south of the
town line.

Mr. and Mrs. E. Sailer are the
proud parents of a son, Kenneth

In The Legislature

By H. O. Hammell, M.L.A.

The past week has seen the intro-
duction for first and second read-
ing of many bills, but as these are
not discussed until the Committee
as a whole, I shall leave these for
a further date.

The main debates this week have
been on Resolutions. First was a res-
olution of some what different policy
to the C. C. F. asking the govern-
ment to consider some policy of pro-
viding compensation for those in-
jured or killed in auto accidents. In
the past resolution introduced by the
C. C. F. has been on Auto Insurance
but Saskatchewan rates have doub-
led and their losses over one million
dollars have been incurred this year.
This was omitted. The Government of
Alberta have under consideration
same policy covering accidents and
deaths so the resolution was turned
down.

Second was a resolution by the
Liberals on Gas Export. As usual they
found the idea of gas export. This
was handled very well by the Pre-
mier who now is also the Minister
of Mines and Minerals when he made
the following statements:

"That Alberta now has over 300
potential gas wells, costing over 18
million dollars to develop and export
to a market. This is also effecting the
further development of drilling for
oil."

He further explained that until a
grid system of collecting gas is
built, a lot of Towns and Villages will
be deprived of gas due to the cost
of lines to separate outlets.

It is now believed that if such a
grid line were built, there is suf-
ficient potential wells in the Dis-
trict Constituency to supply the
Towns and Villages in this District.

In this debate it was told that be-
fore gas was exported, many pro-
ducts such as propane, sulphur, bu-
tane, etc., must be extracted, leaving
a sludge or heating gas only for ex-
port. Thus the farmers of Alberta
could have propane for heating and
the petro chemical industries which
already spent or proposed to spend
million dollars in Alberta can use
the products.

Thus the petrochemical industries
will build in Alberta and not at the
end of the lines as some fear.

It is, as explained by the Premier,
the intention of the government to
encourage gas export, taking into
consideration the requirements and
needs of our own people, first, and
the development of industry second.

It is interesting to learn that the
Alberta government is only able to
regulate or control the export of
gas within its own borders and after
that it is the responsibility of the
federal govt., thus the reason for
expecting companies applying
to both the Alberta and Federal
governments for separate bills.

First, the premier intro-
duced the budget and next week I
will be able to deal with this.

Only two resolutions have been de-
bated and voted on.

First was a resolution requesting
the government to enquire into some
form of compensation for those in-
jured or killed in auto accidents. As
this is already being done the vote
was unanimous.

The second was the resolution on
the gas export question and the gov-
ernment stand which was endorsed by
a strong vote including government
members and the Conservatives and
which was opposed by the two C.C.F.
members and three Liberals.

I wish to thank all those who wrote
me in regard to the Liquor Question.
I expect that this bill will be brought
in next week and will be reported
then. So far, those members who
spoke in the throne debate, expressed
their opposition to any further
outlets for liquor but further on this
later.

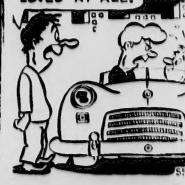

LESS PORK IN SIGHT
FOR THIS YEAR

It looks like a big decrease in
pork production this year, accord-
ing to official sources. Breeding
stock is away down, over 20 per
cent for the first six months, and
the ration between hogs and grain
greatly favors the selling of the
latter direct rather than feeding to
pigs.

WHIST DRIVE AND BOX SOCIAL

On February 27 at the Westward
In school the district Beef Club held
a whist drive and a box social.
To open the evening we played
twelve hands of whist and several
rounds of hoop. Following this the
attractive assortment of boxes were
auctioned by Cliff Gibbs and Jake
Newfield.

After this ten names were drawn
and each given a prize. The prizes
went to the following people: Mable
Rindall, Alfred Jones, E. Krebs, Mrs.
Ray, Glen McCracken, Liz McConnell,
E. W. Waldoff, Jim Rock, O. Paterson
and M. A. Knights. The prizes
were: a lovely rug, one gallon Shell
anti-freeze, one gallon Preston anti-
freeze, one Henry Perkins billfold,
one complete oil change with filter,
two boxes of fancy biscuits, one box
English toffee, one lb. box chocolates
and a box of men's hankies.

When lunch was over Mr. Spooner
gave a short speech to close the
evening.

From the box social and whist
drive we realized \$196.15. This money
is going to be used for call prizes.
